

COURSE SPECIFICATION 7TH SEMESTER

Course Name : Thesis
Code : KU 474
Credit : 3

Course Description:

Thesis is a scientific paper in the form of an explanation of the results of research that discusses a problem in a certain field of science by using applicable principles in a field of science. A thesis is a scientific paper that must be done by every student who takes the undergraduate (S1) study program at the Faculty of Agriculture, Agrotechnology Study Program as a final project. Thesis is also evidence that shows the academic ability of the student concerned in research related to educational problems in accordance with their field of study. Thesis preparation starts with research proposal, proposal seminar, research (observation/experimental), final report, thesis result seminar, and final defense of thesis.
